Book Review Mini-Critique

Below you will find ratings (scale of 1-5) with descriptions for the major parts of your book followed by your Readers' Favorite review. Although these are general ratings we hope they will give you an insight into how others may view the different components of your book.

These are the opinions of your reviewer, and although your reviewer is not an expert literary critic or professional editor, they are at the very least, an avid reader of books just like yours.

Title: Xeno Tryst
Subtitle: Xeno Tryst Duology Book 1
Author: Troy D. Wymer
Genre: Fiction - Science Fiction

Appearance: The appearance of a book can make a significant impact on the experience of a reader, whose enjoyment is often enhanced by an enticing cover, an intriguing table of contents, interesting chapter headings, and when possible, eye-catching illustrations.

4

Plot: The characters of a book should be well defined with strengths and flaws, and while they do not have to be likable, the reader does have to be able to form a connection with them. The tone should be consistent, the theme should be clear, and the plot should be original or told from a unique perspective. For informative books -- those without plot and characters--this rating refers primarily to your concept and how well you presented it.

5

Development:	Development refers to how effectively you told your story or discussed your topic. The dialogue should be realistic, the descriptions should be vivid, and the material should be concise and coherent. Organization is also a key factor, especially for informative books -- those without plot and characters. The order in which you tell your story or explain your topic and how smoothly it flows can have a huge impact on the reader's understanding and enjoyment of the material.
5	
Formatting:	Formatting is the single most overlooked area by authors. The way in which you describe scenes, display dialogue, and shift point of view can make or break your story. In addition, excessive grammatical errors and typos can give your book an amateurish feel and even put off readers completely.
5	
Marketability:	Marketability refers to how effectively you wrote your book for your target audience. Authors may include content that is above or below the understanding of their target reader, or include concepts, opinions or language that can accidentally confuse or alienate some readers. Although by its nature this rating is very subjective, a very low rating here and poor reviews may indicate an issue with your book in this area.
4	
Overall Opinion:	The overall starred rating takes into account all these elements and describes the overall reading experience of your reviewer. This is the official Readers' Favorite review rating for your book.

Reviewed by K.C. Finn for Readers' Favorite

Xeno Tryst is a work of science fiction, space opera, and romantic fiction penned by author Troy D. Wymer, and forms the first book of the Xeno Tryst Duology. Written for adult audiences due to its explicit and erotic sexual content, the story's central character is Sierra. In her day job, Sierra is thrown into fascinating and harrowing situations with the Galactic Emergency Medical Team, which takes her to disaster scenes and eerie locations in space to do her work. In her free time, she is a vocalist for a metal band and an advocate for sexual freedom across many boundaries. When her two different worlds collide and strange symbols and beings come to her, so begins a fascinating journey and a mystery to be solved.

Erotic fiction readers will not be disappointed by the distribution of the content in Xeno Tryst, as Sierra's sexual adventures are well placed and recurrent throughout the tale. Between these lusty and descriptive exploits, there's plenty of plot to discover, as we explore the attitudes of other people and planets with regard to sexual freedom, and the mysteries out in the great blackness of space which await Sierra's discovery. The world-building by author Troy D. Wymer is consistent and cohesive, creating a cinematic vision of a future world with interplanetary travel and relations. The characters develop far beyond just their sexual side with well-paced emotional arcs and relevant experiences that shape them through the plot. Overall, Xeno Tryst is much more than it first appears: an all-round excellent sexy space adventure.
